WHAT IS A MATH PEER LEADER?

A peer leader, or "PAL" (stands for Peer Assisted Learning), is a student who provides tutoring support to other students enrolled in MATH 095, MATH 140E/T or MATH 110 E/T.

WHAT DO MATH PALS DO?

- Attend all meetings of the class section they serve.
- Hold regular office hours in Math Services, tutoring 5 hours weekly.
- Facilitate a weekly tutorial section (MATH 110T and MATH 140T only) attended by all students.

New PALs should plan to enroll in MATC 205 Learning Assistance Workshop (CRN 92432), a one-credit professional development course with a monthly meeting and some additional online work.

CONTACTS

Prof. Donna Russo
Director, Math Services
Drusso@bridgew.edu
AAC, X2013

Dr. Matt Salomone,
Math Department Chairperson
msalomone@bridge.edu

MANY SECTIONS AVAILABLE

WHY YOU SHOULD BE A PAL

- Great Leadership experience
- Keep your Math Skills fresh
- Build your Resume
- Get satisfaction knowing you helped someone else succeed
MATH TUTORS NEEDED

WHAT DO MATH TUTORS DO?

- Tutor individual and small groups of students in Core Curriculum math courses (100-level) as well as Calculus and Statistics courses
- Help students prepare for Accuplacer and MTEL tests
- Conduct one-on-one tutoring appointments with students

WHY SHOULD YOU BECOME A MATH TUTOR?

- Great teaching and learning experience
- Keep your math skills fresh
- Build resume
- Get satisfaction knowing you helped someone else succeed

(NEW) Tutors should plan to enroll in MATC 205 Learning Assistance Workshop (CRN 92432), a one-credit professional development course with a monthly meeting and some additional online work.
