Guest Lecturers on YouTube

For the past three years, and with the assistance of Matthew DeGrechie of the BSU Television Studio, the clinic program started recording guest lectures in HD and broadcasting them on YouTube. All archived lectures before 2011 have also been uploaded to YouTube and can be viewed via the new and improved CPDC website, www.bridgew.edu/cpdc.

Since 2011, the CPDC videos have had 258,060 views from around the world via YouTube. The top videos to date have been:

- *iPad Apps for Autism* - 100,519
- *Journey Into the Deaf World* – 37,882
- *Rhythmic Activities for Children* – 27,533
- *Child with Cerebral Palsy: Motor Development Concerns* – 10,323
- *Keys to Effective Behavior Management*—5,896

This year we successfully added closed captions (cc) to Dr. Marilyn Neaul’s lecture, “Introduction to the Cochlear Implant”, which is now on YouTube.

Guest Lecture Highlights 2013-2014

Dr. Jeff McCubbin, Dean, College of Applied Human Sciences, Colorado State University, Fort Collins, CO.
Topic: “Making an IMPACT: How One Program Influenced Many” (Anniversary presentation to celebrate the 40th year of the Children’s Physical Developmental Clinic.)

Michael Stein, Executive Director, Harvard Law School Project on Disability, Harvard University, Cambridge, MA
Awards and Acknowledgements

Honor’s Week, April 28-31, 2014:

One of the more gratifying times of the academic year is Honors Week. University President, Dr. Dana Mohler-Faria remarked, before a gathering of students, their families, guests and faculty, that we celebrate the tremendous achievements of our students, whose commitment to academic success, leadership and community service embodies the true essence of excellence at Bridgewater State University.

Senior student group leaders attending the Division of Student Affairs program and receiving the Carol Mulloy Cuttle, ’82 Memorial Scholarship are (left to right): Jaqueline O’Brien, Carly O’Sullivan, and Elizabeth Ferguson.

Senior student clinicians and group leaders attending the College of Education and Allied Studies program and receiving recognition in the form of a scholarship are (left to right): Maria Cahill, Jennifer Drake, Carly O’Sullivan, Elisha Homich, Stephanie Young, Leah Hurley, and Christina Miceli. (Janelle Roberts, not pictured.)

Parting is Such Sweet Sorrow: Members of the Senior Staff

This year, both Olivia Lemmon, after three years of service, and Cesar Rubecindo, after seven years of service, are leaving the CPDC program. They both served the clinic program extremely well and will be truly missed.

Graduating Senior Ceremony

Senior clinicians, group leaders and blue crew members with Executive Vice President for External Affairs, Fred Clark.

Executive Vice President Fred Clark acknowledges the work of Camilla Moraes and extends best wishes to her. Camilla is a visiting student from Brazil majoring in Physical Education with a concentration in Recreation.
Spring Events and Activities

The Ninety-Nine Restaurant and pub in Bridgewater hosted the 4th annual fundraising event for the CPDC. The event was held from 5:00pm to closing and attracted many students, faculty and families from neighboring communities.

CPDC always completes the semester with a Saturday Luncheon. Throughout the year, the ladies from Phi Sigma Sigma volunteer their time to help the Saturday morning clinic run smoothly. Here they are pictured serving sandwiches to children, parents, staff and clinicians.

Congratulations are in order, for this was the 25th year of Gamma Phi Beta holding a 2 day Rock-A-Thon to benefit the clinic. This year's event was held at the bridge between east and west campus.

A key part of the clinic program includes weekly lectures in medicine, rehabilitation, psychology and teaching, many of which are presented by professionals from colleges, universities, teaching hospitals and governmental agencies throughout New England. These professionals provide valuable teaching strategies and suggestions for working effectively with children who have a myriad of developmental challenges. Furthermore, lectures teach clinicians strategies needed to draw children into play activities, maintain their interest in various activities and develop methods to guide them to higher levels of performance and self-appreciation. These lectures are given at weekly seminars conducted between 8 AM and 9 AM Saturday mornings.

A list of lecturers, topics and dates (below) has been prepared for student clinicians, as well as other interested BSU students, faculty, alumni and members of the community who wish to attend.
