

BRIDGEWATER STATE UNIVERSITY STRATEGIC PLANNING GRID

Division of Information Technology

GOAL 1 – Advance the mission of the university by maintaining a current, reliable, and scalable technology infrastructure.

“Focus our resources and decision making on the overarching priority of student success.”

GOAL 2 – Collaborate with faculty, academic leadership, and students to apply technology to teaching and learning in ways that promote pedagogical innovations.

“Provide a teaching and learning environment with exceptional opportunities for intellectual, creative, and professional growth.”

GOAL 3 – Achieve operational and service excellence through continuous improvement in IT service delivery, information security, and technology adoption.

“Provide opportunities for personal and professional growth for faculty, librarians, and staff in support of organizational progress.”

GOAL 4 – Build and strengthen local, regional, & global partnerships by providing technological opportunities & advancement.

“Serve as a regional catalyst for economic, cultural, and intellectual engagement.”

GOAL 5 – Promote the University's initiatives of diversity and social justice through community and civic engagement.

“Advance higher education diversity and social justice with impact in the region and beyond.”
